Henry H. Wheeler Jr. Brain Imaging Center Research Day
Jan 6, 2014
Henry H. Wheeler Jr. Brain Imaging Center
2013 Highlights

Monday, January 13, 2013, LKS 123

9:00  Coffee, pastries and mingling
9:30  BIC update! Mark D'Esposito/Ben Inglis
9:55  “Magnetic resonance spectroscopy”
     Ian Greenhouse (Ivry lab)
10.20 “Perfusion imaging as an index of the effect TMS”
      Caterina Gratton (D'Esposito Lab)
10:45 “Simultaneous TMS and fMRI”
      Justin Riddle (D'Esposito lab)
      [5 minute stretch break]
11:15 “FISCA: Functional Inter-Subject Component Analysis, to natural movies and speech”
      Natalia Bilenko (Gallant Lab)
11:40 “Population receptive field mapping”
      Michael Silver
12.05 “Current status of PET scanning”
      Bill Jagust
12:30 - 2:00 LUNCH BREAK (on your own)

2:00 “CSI and brain mapping”

2:30 “Electrophysiology, digital imaging”

3:00 “Whole brain mapping”

3:30 “Imaging of neural activity and connectivity”

4:00 “Social image processing”

4:30 “Developmental imaging”

5:00 Adjourn
