Henry H. Wheeler Jr. Brain Imaging Center Research Day

Jan 6, 2014
Henry H. Wheeler Jr. Brain Imaging Center
2013 Highlights

Monday, January 13, 2013, LKS 122

9:00        Coffee, pastries and mingling
9:30        BIC update! Mark D'Esposito/Ben Inglis
9:55        “Magnetic resonance spectroscopy”
             Ian Greenhouse (lvry lab)
10:20       “Perfusion imaging as an index of the effect TMS”
             Caterina Gratton (D'Esposito Lab)
10:45       “Simultaneous TMS and fMRI”
             Justin Riddle (D'Esposito lab)
             [5 minute stretch break]
11:15       “FISCA: Functional Inter-Subject Component Analysis, to
             natural movies and speech”
             Natalia Bilenko (Gallant Lab)
11:40       “Population receptive field mapping”
             Michael Silver
12:05       “Current status of PET scanning”
             Bill Jagust
12:30 - 2:00 LUNCH BREAK (on your own)
2:00        “Current status of fMRI scanning”
