Henry H. Wheeler Jr. Brain Imaging Center Research Day

Jan 6, 2014
Henry H. Wheeler Jr. Brain Imaging Center
2013 Highlights

Monday, January 13, 2013, LKS 1225

9:00          Coffee, pastries and mingling
9:30          BIC update! Mark D'Esposito/Ben Inglis
9:55          "Magnetic resonance spectroscopy"
               Ian Greenhouse (Ivry lab)
10.20         "Perfusion imaging as an index of the effect TMS"
               Caterina Gratton (D'Esposito Lab)
10:45         "Simultaneous TMS and fMRI"
               Justin Riddle (D'Esposito lab)
               [5 minute stretch break]
11:15         "FISCA: Functional Inter-Subject Component Analysis, to
               natural movies and speech"
               Natalia Bilenko (Gallant Lab)
11:40         "Population receptive field mapping"
               Michael Silver
12:05         "Current status of PET scanning"
               Bill Jagust
12:30 - 2:00  LUNCH BREAK (on your own)
2:00          "GSE and brain mapping"
